- ◇ Fuel management - The MC Box security system protects tanks from unauthorised use by only allowing approved users to access fuel through the use of pin numbers or keys. Many users storing fuel (usually worth tens of thousands of pounds) don't always need expensive Fuel Management Systems but would like the security features such a system would offer at a lower cost. In its basic form the MC Box provides these security features with the option for simple upgrades to full Fuel Management for those who require it. Other options are available.
